FLIP-IN HAIR PRODUCTS:

Extensions, flashes and dip-dyes

- Temporary
- Damage-free
- 100% Human Hair
- Cuticle aligned, tangle free
- Simple to fit and remove
- Attaches with an invisible wire
- Designed for comfort
- Can be styled with heated appliances
- Can be used in thin or damaged hair

ADVICE

- Colouring is not advised and not necessary with such a vast range of colours.
- Any colour treatment and modification to the extensions will invalidate the warranty; therefore is at your own risk.
- Always use heat protection when styling Flip-In Hair.

1 The model's natural hair before fitting Flip-In Hair extensions. The same method is used for Flip-In Hair flashes and dip-dyes.

2 Place Flip-In Hair on with the wire sitting behind the hair line. Gently push down to fit over the ears and sit at the base of the skull.

3 Either split the hair around the ears or leave over the top as pictured. Use the tail comb provided to pull your own hair over Flip-In Hair.
